

Pydon'ts

Write elegant Python code (v2)

by Rodrigo Girão Serrão

Pyjamas Conf 2021

About me

Rodrigo Girão Serrão

- Formal education: maths
- Writing Python since 2012
- Training/teaching:
 - Python, maths, etc (mathspp.com)
 - APL (Dyalog Ltd.)

@mathsppblog

Task

```
>>> swap_case("Hello, world!")  
'hELLO, WORLD!'
```

```
>>> swap_case("abCde 15")  
'ABcDE 15'
```

A little detour...

Refactoring recap

- refactor `for` loop;
- use a conditional expression;
- leverage appropriate string method (`isupper`);
- replace ITM pattern with list comprehension;
- use THE appropriate string method.
